

Dundigalla Rithwik Mohan

Hyderabad, India

rizwik475@gmail.com — +91 80198 53653 — GitHub — LinkedIn — LeetCode

Summary

Information Technology undergraduate (CGPA: 9.18) skilled in Full-Stack Development, Software Engineering, and AI-powered application development. Experienced in building scalable web applications, RESTful APIs, and cloud-integrated solutions using React.js, Node.js, Python, and MongoDB. Strong problem-solving abilities demonstrated through 350+ LeetCode problems, hackathons, and real-world projects serving thousands of users.

Education

Chaitanya Bharathi Institute of Technology, Hyderabad	Dec 2023 – Present
Bachelor of Technology in Information Technology	CGPA: 9.18
Narayana Junior College, Hyderabad	Jun 2021 – Apr 2023
Class XII	96.6%
Narayana CO School, Hyderabad	Jun 2020 – Apr 2021
Class X	GPA: 10

Projects

CivicVision – AI-Powered Civic Issue Reporting Application GitHub

- Built a scalable mobile app for infrastructure issue reporting with GPS tagging, supporting **5,000+ users**.
- Integrated CNN (MobileNetV2) achieving **90% accuracy** in classifying potholes, garbage, and road damage; automated complaint generation and priority tracking.
- Developed admin dashboard with spam detection, duplicate merging, and map visualization using AI-driven analysis.
- **Tech Stack:** Flutter, Python, Flask, TensorFlow, MongoDB, Firebase

Campus Connect – AI-Powered Student Donation Platform GitHub

- Integrated **Gemini API** to build a GenAI-powered chatbot and intelligent NGO recommendation engine within the software development lifecycle.
- Developed a full-stack platform connecting students with NGOs across multiple colleges, with REST APIs, JWT authentication, and role-based access control.
- Designed responsive UI with real-time tracking and gamified rewards to drive engagement; automated key workflows end-to-end.
- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, Firebase, Gemini API

Virtual Exam Bridge – Lab-Internal Examination System GitHub | Live

- Built a secure full-stack exam platform with role-based access, used to conduct exams for the **entire IT department**; designed REST APIs and database schema for managing exams and submissions.
- Implemented scheduling, question classification, real-time tracking, and structured validation for system reliability.
- **Tech Stack:** React.js, Node.js, Express.js, MongoDB

Technical Skills

Programming Languages: Python, JavaScript, SQL

Frameworks & Libraries: React.js, Node.js, Express.js, TensorFlow, Flutter

Databases & Cloud: MongoDB, MySQL, Cloudinary

AI/ML: Machine Learning, Deep Learning, NLP, Gemini API

Tools & Platforms: Git, GitHub, Postman, Hadoop, Hive, Pig, Apache Spark, Power BI, Pandas, NumPy, Matplotlib

Core CS: Data Structures & Algorithms, OOP, DBMS, OS, Computer Networks

LeetCode: 350+ problems solved

Certifications

- | | |
|--|-------------------|
| • Microsoft Azure AI Fundamentals (AI-900) | <i>Microsoft</i> |
| • Oracle Cloud Infrastructure 2025 Certified Foundations Associate | <i>Oracle</i> |
| • Salesforce AgentBlazer Workshop | <i>Salesforce</i> |
| • Joy of Computing Using Python – NPTEL | <i>NPTEL</i> |

Achievements

- Competed in **Smart India Hackathon (SIH) 2025** at the national level, representing CBIT among thousands of teams solving real-world government problem statements.
- Secured a position in **Sudhee 2026** institutional hackathon, delivering a working AI-powered prototype under tight sprint deadlines in a cross-functional team.
